APPENDIX_____ 30

TO OUR COMMUNITY

Introduction

As the residential and business population of Jamestown Charter Township continues to increase, the amount of recreation area per person is reduced, creating access challenges to recreational opportunities. Areas of recreation provide gathering places for residents, employees of local businesses, and visitors to socialize, relax, be physically active, and build community.

In an effort to guide the development of recreational opportunities in Jamestown Charter Township, this Jamestown Charter Township Community Recreation Plan was created.

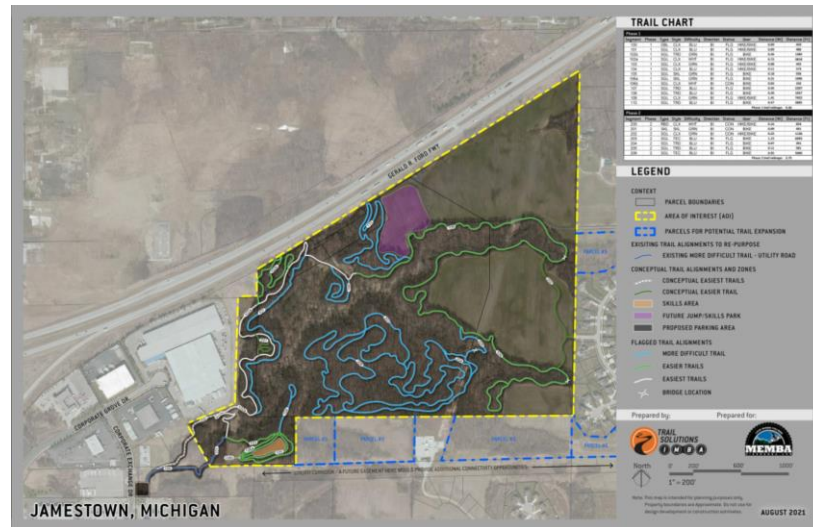

This Plan is not simply designed to meet the criteria for grant opportunities with the State of Michigan but is designed to be an aggressive opportunity to provide community improvements in various forms for physical activity for current and future generations of Jamestown Charter Township and the people of the great State of Michigan.

Currently, the Township owns and maintains an expanding system of multiuse pathways. The Township recognizes that as the community continues to grow at a high rate and strategically located open land becomes increasingly scarce, the need for an extensive multiuse pathway network, convenient parks, and recreation facilities will become more critical. To that end, the Township broke ground on the early stages of one of two separate park properties to serve not only the population of Jamestown Charter Township but also the greater regional area of the City of Grandville, Georgetown Charter Township, the City of Holland, Holland Charter Township, the City of Zeeland, Zeeland Charter Township, the City of Hudsonville, the City of Grand Rapids, and the lakeshore.

The Jamestown Community Park, which is generally centralized within the Township, began the installation of playground equipment, internal drives, and parking. While this park is master planned for various recreational and sporting venues, its completion date is cannot be achieved without additional monies.

Coupled with the Jamestown Community Park is our Mountain Bike Park, which is uniquely tailored to the mountain biking community and is expected to be used by regional and multi-State mountain bike enthusiasts. The property is located immediately adjacent to Interstate 196 and the City of Hudsonville, and will be developed through a partnership with the local chapter of the International Mountain

Biking Association, Michigan's Edge Mountain Biking Association (MEMBA), the City of Hudsonville, the Ottawa County Water Resource Commissioner (OCWRC), Consumer's Energy, and Rock Solid.

Jamestown Mountain Bike Park Concept

Jamestown Community Park Master Plan

Jamestown Charter Township has utilized the Michigan Department of Natural Resources planning process and designed this Recreation Plan to help facilitate the financial future and related growth of the aforementioned parks as well as additional recreational opportunities to serve the region.

COMMUNITY DESCRIPTION

The Community Description section of this Plan provides the jurisdiction of the Plan and an overview of Jamestown Charter Township along with its regional communities.

Plan Jurisdiction

The government jurisdiction of this Plan is Jamestown Charter Township. However, the Plan is designed to serve the greater regional area of the City of Grandville, Georgetown Charter Township, the City of Holland, Holland Charter Township, the City of Zeeland, Zeeland Charter Township, the City of Hudsonville, the City of Grand Rapids, and additional lakeshore communities. Jamestown Charter Township is located in the southeast corner of Ottawa County bordered by Georgetown Charter Township to the north, Zeeland Charter Township to the west, Salem Township (Allegan County) to the south and Byron Township (Kent County) to the east. The City of Hudsonville extends into the north central part of the Township in the area of the Interstate 196 (I-196) interchange. The Township is approximately 35 square miles in size.

At the regional coordinating level, Jamestown Charter Township is approximately 15 miles southwest of downtown Grand Rapids, 12 miles east of the City of Holland, 7 miles east of the City of Zeeland, and 18 miles north of the City of Allegan. The shoreline of Lake Michigan is located approximately 18 miles west of the Township. Major freeways in the area include Interstate 196, which runs through the northwest sections and M-6, which connects to I-196 in the northeast. Chicago Drive (M-21) also travels through the northwest corner of the Township.

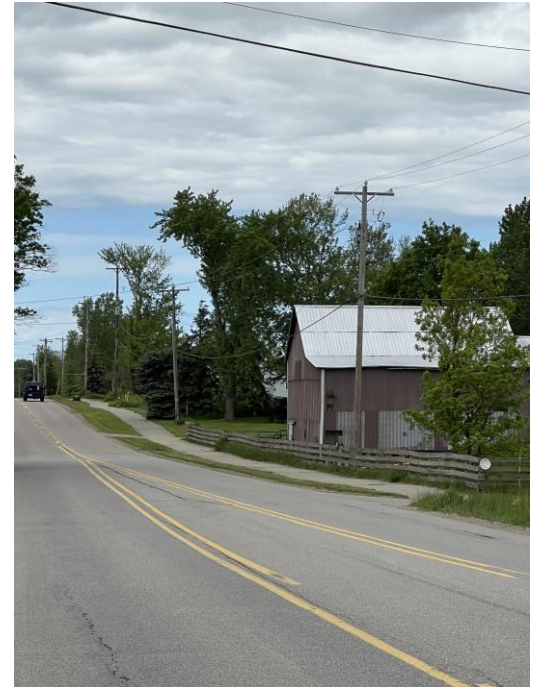

Service Need

Since the previous recreation planning period, the Township population grew approximately 7.5% beyond the projection for the year 2020 for a total population of approximately 10,200 persons. The Township is further projected to have grown at an even greater rate into the year 2025. Regionally, the recreation planning area is projected to continue to grow in population. Overall, Township recreational amenities are catered to serve the over 366,000 persons throughout these community populations.

Plan Focus

In response to the recent community recreation survey, as well as past community surveys and other public engagement sessions, this Plan is designed to not only sustain current recreation levels but actively expand those services to accommodate the needs of the growing population, and provide for increased opportunity to exercise and improve overall health. To meet the needs of the regional coordinating area, primary recreation components include:

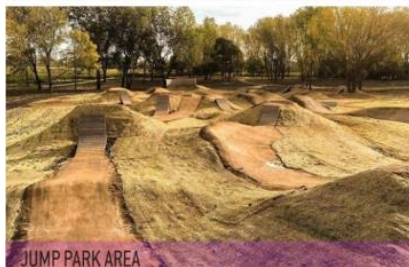

Maintenance and expansion of over 39 miles of existing multiuse pathways.

Continued phasing of the Community Park, which includes soccer fields, baseball diamonds, pickleball courts, a basketball court, a skate park, community building, nature trails and other recreational amenities.

Breaking ground on the Mountain Bike Park, which includes trail re-purposing, trail expansion, a jump/skills area, land acquisition, and parking.

SKILLS AREA

SKILLS AREA

BIKE-OPTIMIZED TECHNICAL TRAIL

BIKE-OPTIMIZED FLOW TRAIL

TRADITIONAL TRAIL

While these primary components are the core of the Plan focus, they are not intended to limit recreation opportunities within the township. Additional recreational amenities were identified by the public and the Parks and Recreation Committee, which are discussed throughout this plan.

ADMINISTRATIVE STRUCTURE

The Administrative Structure section of this Plan provides a description of the administration, funding, and relationships within the Township that support parks and recreation programs and planning.

Jamestown Charter Township Board

The Township Board is the legislative body in the Township. As with most Michigan townships, it is comprised of a Supervisor, Clerk, Treasurer, and Trustees. Members of the Board are elected to serve four (4) year terms. The primary role of the Township Board is to develop legislative policies (which include the adoption of the Master Plan, Zoning Ordinance, Capital Improvements Plan and the Recreation Plan) and establish the annual budget for the Township.

Members of the Township Board in 2025 include:

- Laurie Van Haitsma, Supervisor
- Candy De Haan, Clerk
- Scott Brouwer, Treasurer
- Wade Windemuller, Trustee
- Tom Wolfert, Trustee
- Ben Miller, Trustee
- Tim Tacoma, Trustee

Parks and Recreation Committee

The Jamestown Charter Township Parks and Recreation Committee (Committee) was originally formed in January of 2000 pursuant to the Michigan Recreation and Playgrounds Act, Act 156 of 1917, as amended, to involve the community in the development of a multiuse pathway system. The group continues to work on multiuse pathways but has expanded their role into all areas of park and recreation planning. One member of the Committee is a member of the Township Board.

Members of the Committee are as follows:

- Lesli Kwiatkowski
- Kerry Bairski
- Dave Pruis
- Erin Wolters
- Ron Koroleski
- Ben Miller, Township Board Representative

All Jamestown Charter Township Parks and Recreation Committee members serve as volunteers to the township.

Township Staff and Organization

The Township staff is comprised of the Supervisor, Clerk, and Treasurer (elected) as well as several appointed and contracted employees. At the present time, all appointed and contracted employees¹ work part time on various days of the week. The Township is also responsible for the fire fighters and the Patmos library staff.

The primary staff involved in the development of this plan is the Township Planning Consultant and Township Engineer.

Park and Recreation Budget

The Township currently maintains over 39 miles of multiuse pathways. The maintenance is performed through a contract with a private company, paid through the general fund of the township. In addition to these multiuse pathways, the Community Park broke ground on its initial phase of playground equipment, internal drives, and parking, all of which will require future maintenance.

As the authority to commit funds for parks and recreation, accept grants, and purchase land for the community, the Township Board line item for parks and recreation maintenance and expansion totals approximately \$665,000.00.

Parks and Recreation Budget	2025	2026 (projected)	2027 (Projected)
Maintenance and Expansion	\$665,000.00	\$60,000.00	\$120,000.00

A copy of the current year and projected budget for parks and recreation is located within the Appendix. For immediate and future improvements, the Township continues to commit funds through its general fund. However, the Township recent launched a continual fund raising campaign for residents, business owners, and visitors to “leave a legacy” and donate to the Township for recreation improvements.

Further, during the year 2025 the Township was fortunate to receive an “in-kind” donation of \$400,000.00 that is being immediately invested in soccer fields and their irrigation, as well as a bathroom building.

Relationship with School Districts

The Hudsonville Public Schools District has four (4) schools in Jamestown Charter Township: Riley Middle School, Jamestown Upper Elementary, Forest Grove Elementary, and Jamestown Lower Elementary. While the sport and playground facilities are available to the public, the Hudsonville Public Schools District does not arrange reservations for these facilities due to their heavy use by the District. As a result, their facilities are generally unavailable for the public during the school year. Nonetheless, the Township and Hudsonville Public Schools District regularly coordinate educational needs with Township development to adequately provide for space for

¹ Township staff includes assessing, planning and zoning, reception/clerical, water and sewer, and building department

school aged children within the District, as well as housing and recreation within the Township.

INVENTORY OF EXISTING PARKS, NATURAL AREAS, AND RECREATION FACILITIES

The Inventory of Existing Parks, Natural Areas, and Recreation Facilities section of this Plan describes the existing recreational facilities within Jamestown Charter Township and the intended expansion of those facilities. Further, this section addresses accessibility for all users and means to improve that access. Since the previous Plan adoption, the Township has broken ground on one park facility and is preparing a second property for the same.

Township Facilities

Multiuse Pathways

Jamestown Charter Township currently has approximately 39 miles of multiuse pathways, which are located along the public street frontage of industrial, commercial, and residential neighborhoods. The Recreation Inventory Map shows the location of the completed multiuse pathways. The Action Plan Map shows the location of planned multiuse pathways. Both of these maps are located within the Appendix.

The multiuse pathway system is barrier-free throughout.

Jamestown Community Park

The Township began construction of the first phase of the Jamestown Community Park, located on almost 75 acres, by installing playground equipment as well as the related access drive, and parking. Unexpected wetland mitigation and other costs reduced the extent of the intended first phase of construction.

When completed, the Jamestown Community Park will contain the following recreational elements:

- Shelter building
- Eight soccer fields
- Four baseball/softball diamonds

- Multiuse pathway and trails
- A skate park
- Community building
- Restroom and concessions building
- Exercise station
- Additional playground space
- Six pickleball courts
- A basketball court
- Sand volleyball court
- Additional parking

Accessibility Assessment – As the Township constructs the park elements, the Committee and the Township Board recognize the opportunity to increase its accessibility to all users. Currently, the limited elements of the Community Park that are constructed or under construction, were provided a grade of a “3” by the Disability Network of the Lakeshore. While the Community Park meets the 2010 Americans with Disabilities Act Standards for Accessible Design, the Township will continue to work with the Disability Network of the Lakeshore (DNL) to identify means to achieve a grade of 4 or 5 for existing and future elements of the park. A copy of the DNL Statement of Accessibility is provided within the Appendix.

Mountain Bike Park (under design)

Through a partnership between the Township, the City of Hudsonville, Consumer's Energy, the OCWRC, Royal Land Company, and MEMBA, when completed, the almost 130 acre Jamestown Mountain Bike Park will contain an over five miles of trails, a skills area, future jump/skills park, and parking.

MEMBA is not only working with Rock Solid to coordinate trail creation but is also working with four “trail tread” landowners to expand the overall park and trail system.

The Township has secured lease and construction agreements with these parties to achieve this end. The Township has committed \$60,000.00 in general funds for the creation of these trails. In addition, MEMBA has been able to secure donations for the park development and is holding funds raised for phase one of the park construction.

Accessibility Assessment – Given that the park has yet to break ground, no accessibility assessment is available. Once construction commences, an assessment will be conducted.

Ottawa County Facilities

The Ottawa County Parks and Recreation Department owns and maintains Spring Grove Park at 1800 Greenly Street within the township. Containing 16 acres of towering trees, this park is a great place for a family picnic. The fully enclosed picnic building is a popular place for meetings, reunions, graduations, and weddings. A flowing spring and small natural area with beautiful spring wildflowers adds to the charm of this park. A trellis constructed in the year 2000 is specially designed for outdoor weddings and other ceremonies.

Facilities* Include:

- Picnic building (reservable)
- Trellis (reservable)
- Modern restrooms
- Picnic tables and grills
- Children's playground
- Ball field
- Horseshoe pit
- Fire pit with benches

**Barrier free facilities include picnic building, restrooms, trellis, playground, and trails to key use areas include the natural spring.*

Other Nearby Parks

The northern portion of Jamestown Charter Township abuts the City of Hudsonville. There are seven (7) parks in the City of Hudsonville that are open to Jamestown Charter Township residents.

Primary parks in the City of Hudsonville² are:

- Hudsonville Nature Center – Located on New Holland Street

² Source: www.hudsonville.org

- Contains a 76-acre nature preserve of woodlands, prairies, and wetlands that offers hiking trails, lookouts, wild flowers, and picnic areas
- Hughes Park – Located at the corner of Van Buren Street and 40th Avenue
 - Contains a picnic area, commons building, ball diamonds, playground, disc golf course, beach volleyball court, picnic pavilions, and a basketball court
- Sunrise Park – Located at the end of Springdale Street
 - Contains a rain garden, baseball diamond, picnic area, pavilion, walking trail, playground, and tot lot
- Hillside Park – Located at the end of Hill Side in Creek View Estates
 - Contains playground equipment, volleyball courts, picnic areas, and a pavilion
- Veteran's Park – Located at Central Boulevard next to the City Hall
 - A gathering place to honor veterans of the United States Armed Forces

DESCRIPTION OF THE PLANNING AND PUBLIC INPUT PROCESS

The Jamestown Charter Township Parks and Recreation Committee led the development of this Plan. The update began at the January 8, 2025 Committee meeting with a review of plan guidelines and the accessibility assessment, conducting an internal assessment of the needs of the community, scheduling of meetings, individual member assignments, and the composition of a community recreation survey.

Planning Method

Given that the objectives of the Township are to improve and maintain the existing recreational facilities and provide for new recreational facilities, including two new parks for the community and the region, the planning process we used was the Equity-Based Planning System, which consists of four steps:

1. Internal Assessment

The Equity Based Planning System was utilized by the Parks and Recreation Committee to assess the recreation and open space needs of the Township and greater community. The Township conducted an internal assessment before drafting significant updates to the Recreation Plan. The Parks and Recreation Committee first met to lay the foundation for the vision and mission of the Township and the Recreation Plan and subsequently formulate questions for a community recreation survey.

The vision and mission of the Parks and Recreation Committee includes:

- Creating a community where residents, businesses, and visitors have equitable access to parks and recreation throughout the Township
- Providing for a variety of recreational opportunities among all age groups
- Building a network of pathways and parks that provide for all types of recreation
- Promoting healthy lifestyles
- Fostering a sense of community

Pursuant to the Introduction and Administrative Structure sections of this Plan, the Committee and the Jamestown Charter Township Board of Trustees are collectively prepared to accomplish the provisions herein.

2. Community Engagement

Led by the Parks and Recreation Committee, which membership consists only of residents of the Township, community engagement was sought through a community recreation survey, which was sent via a postcard to every resident and

business in the Township. The postcard contained a QR code directing the user to the survey, a survey website, and the Township phone number to call for a paper copy to be mailed to the resident or business owner, if needed, to enable the recipient several methods to obtain and complete the survey. A copy of the survey was always available at the Township Hall and the Patmos Library as well. The Committee concluded that this method of outreach was the best means to contact every person that lives or works within the Township, achieving maximum participation and equity.

3. Resources and Data Collection

Following closure of the survey, the Township collected the data and performed an analysis to develop priorities of the Township for the purpose of allocating resources to certain projects and needs based on contributions from respondents to the survey. In particular regard to access, the community survey directly asked recipients regarding barriers to visiting nearby parks. The importance of handicap accessibility was noted by 1.71% of respondents. Additionally, the Township sought assistance from the Disability Network of the Lakeshore to conduct an Accessibility Assessment of the Community Park. Once the assessment was complete, the Parks and Recreation Committee sought means to improve their overall ADA score within all portions of the park, including those under construction and those not yet constructed. Once all of the parks and recreation priorities were identified, the Township formulated goals and objectives for this Plan to best serve the community and the region.

4. Implementation

As a result of the goals and objectives formulated by the Parks and Recreation Committee, an action program was created by the Township to set forth the specific steps for future implementation. These actions include not only physical projects but also specific actions to improve recreational opportunities within the Township. In addition, plans to close funding gaps and prioritize resources are outlined within the Action Program section of this Plan. The Committee recognizes that its partnership with additional landowners and organizations helps to make the implementation of this Plan more successful.

Public Input Process

The Committee designed a community wide recreation survey, which was available to the public for approximately one month and resulted in 821 completed surveys.

Advertising for the survey was sent via a postcard to every homeowner and business in the Township, on social media, at the Township Hall, on the township website, and at the Patmos Public Library. Surveys could be completed online or by hard copy submission.

A copy of the survey and the results are found within the Appendix of this Plan.

Past Survey Results

In 2013, the Committee conducted a similar community survey, which resulted in 101 responses, representing approximately 347 residents within the Township. The results found that continued development and connecting of multiuse pathways is an important priority, while a previously held priority of building sports facilities is not supported. The results further found that additional priorities included the reservation of property for future parks and recreational needs as well as the development of additional parkland with emphasis on nature trails, playground equipment, picnic facilities, and a splash pad.

More recently, the Committee conducted a similar community survey in 2018, which resulted in over 400 responses, representing approximately 1,200 people. The results found that the continued development of multiuse pathways as well as reserving property for future parks and recreation needs were important by the majority of respondents. Only slightly more than half of the respondents indicated that the Township should build more sports facilities.

The 2025 community survey, on which this Plan was developed, in part, found that the recreational improvements most desired by respondents included connecting existing multiuse pathways, pickleball courts, paved trails, playground equipment, benches/seating areas, nature areas, pavilions, and a splash pad.

The Committee was pleased to find that the interests and suggested priorities of the public remain relatively consistent between surveys conducted in 2008, 2013, 2018, and 2025.

Public Comment & Inspection Period

In addition to the community survey, the Township created an opportunity for the public to comment and inspect the proposed Recreation Plan for at least thirty (30) days prior to a public hearing being held by the Jamestown Charter Township Board of Trustees. Notice was provided within the Grand Rapids Press Newspaper, was posted at the Township Hall and on the township website, and was posted at the Patmos Public Library. A copy of the notice is attached to this Plan within the Appendix. No comments were received.

Public Hearing

Lastly, following a thirty (30) day public comment and inspection period, where this Plan was available to the public for review, on November 17, 2025, a public hearing was held by the Jamestown Charter Township Board of Trustees to present the plan to the public and receive additional public input. A copy of the related hearing notice and hearing minutes are attached to this plan within the Appendix.

GOALS AND OBJECTIVES

This section of the plan provides goals for the current and future of parks and recreation within Jamestown Charter Township. These goals have been developed based on public input, particularly from the recent recreation survey. Each goal is further defined by its objectives. The subsequent Action Program section of this plan highlights potential projects to help meet these goals. These goals are not necessarily presented in order of priority and the numerical sorting is for identification only.

Goal #1: Continue the development of multiuse pathways with particular focus of increasing connectivity between existing pathways and park locations.

Objectives: Continue to require developers to design connectivity pathways along public street frontage.

Plan future township funded multiuse pathway connections as a priority over new pathways.

Goal #2: Establish a network of nature trails.

Objectives: Explore opportunities for land exchanges and other similar programs to eliminate small parcels currently owned by the township in exchange for larger parcels more suited to the community's future recreation needs.

Partner with nature preserve organizations to identify prime locations for nature trails that limit damage to the unique ecosystem of the Township during the creation of the network.

Goal #3: Construct playgrounds and related recreational amenities for children, including a splash pad, and increase the safety of these features by its users and secure these features from conflict.

Objectives: Examine parcels owned by the Township adjacent to high concentrations of residential neighborhoods to establish playground facilities.

Encourage developers to incorporate small areas for public use in their site designs. These areas could be equipped with a number of facilities including park benches or playground equipment.

Focus on equipment safety for all users and establish security mechanisms to reduce conflict between users and outside attributes.

Goal #4: Ensure that there are adequate lands for parks and recreation for future generations.

Objectives: Provide a geographically balanced park system throughout the Township.

Plan future parks and recreation areas with the needs of all segments of the population considered.

Goal #5: Increase opportunities for exercise and reduce obesity in children and adults.

Objectives: Continue to identify areas best suited for multiuse pathways and parks, that are easily accessible to residential areas.

Provide for various types of recreation to meet the needs of all abilities of users.

Goal #6: Create a gathering place for tweens and teenagers to provide access to recreation.

Objectives: Provide a safe and productive location for youth to recreate through amenities such as skate parks, rock climbing walls, and other appropriate opportunities.

Goal #7: Preserve, protect, and improve natural, scenic, and environmentally sensitive areas for appropriate public use and enjoyment as well as habitat protection.

Objectives: Provide programs and facilities that educate the public about the environment.

Provide programs and facilities that support the conservation, protection, and preservation of the natural environment.

When appropriate, hire staff to manage these programs and facilities.

Goal #8: Install athletic courts and fields such as soccer, baseball, football, tennis, pickleball, and basketball to serve the Township residents, businesses, visitors, and the region.

Objectives: Acquire property as it becomes available to ensure recreational opportunities keep pace with the needs and population of the community and the region.

Plan for long-range needs to develop existing Township owned land and the expansion of existing park facilities.

Goal #9: Explore sustainable funding opportunities for future park development and maintenance.

Objectives: Explore partnerships with local corporations and organizations.

Improve the fundraising program for land acquisition, park improvements, and trail maintenance.

Continue to seek funding opportunities from grants, foundations, mileages, and donations.

Plan for accessory amenities such as a community building, bathrooms, and changing rooms.

ACTION PROGRAM

The Action Program chapter is based on the collected data, public input, and the goals and objectives section. It sets forth the specific steps for future implementation of those goals and objectives. These actions include not only physical projects but also specific actions to improve recreational opportunities within the Township.

Through the recreation survey, the Jamestown Charter Township Parks and Recreation Committee was able to identify priority recreational opportunities.

Recreational priorities include the development and connection of existing multiuse pathways, nature areas and trails, paved trails, playground equipment, pickleball courts, benches/seating areas, pavilions, and a splash pad. In addition to the goals and objectives section of the plan, this chapter focuses on the facilities identified as priority by the Township residents and outlines steps to take for the Township to realize these facilities.

Action Implementation: Nature Trails and Multiuse Pathways (Goal #1, #2, & #5)

Nature Trails

The township currently owns two (2) parcels of land in the northern half of the township, which are intended to contain the Mountain Bike Park. While said Park is planned for these properties, they will also be used by pedestrians on foot, as walking trails. Additional trails, not intended for mountain biking, could also be created with the properties.

Multiuse Pathways

The existing multiuse pathway system is an extremely popular and important transportation system within the township. The multiuse pathway system not only serves as a recreational resource for activities such as biking and walking but also as transportation network since the township has a significant amount of employers along multiuse pathway routes.

Multiuse pathways have been important to the township residents for several years. In the year 2000, a survey was mailed to 425 township residents asking for comments relating to recreation planning. Sixty-five percent (65%) of respondents stated that multiuse pathways were very important to them. Another twenty-seven percent (27%) said that multiuse pathways were somewhat important. In 2008, the community survey additionally found that multiuse pathways are an important priority. As a result of the 2018 recreation survey, over ninety percent (90%) of survey respondents indicated that pedestrian pathways are somewhat important to very important. Most recently, the

2025 recreation survey showed that, only second to pickleball courts, paved trails received the most support for priority improvements in Township parks.

Planning discussions in the Township regularly involved assessments of appropriate locations for additional multiuse pathways. Jamestown Charter Township was fortunate to be part of the proposed Frederick Meijer Trail System. That system will connect Jamestown Charter Township residents with townships and cities to the west and east, eventually creating a trail system all the way to Lake Michigan. Other sections of multiuse pathways planned for the township include 32nd Avenue and parts of Quincy Street. The existing and planned multiuse pathways are shown on the Action Plan Map and describe the following:

Frederick Meijer Trail

The trail enters the Township from the east at Kenowa Avenue and Quincy Street, extending west to 8th Avenue. The trail then travels south on 8th Avenue to Greenly Street and 24th Avenue. The Township has completed a portion of the trail along Riley Street between 24th Avenue and 32nd Avenue. The trail exits the Township at Riley Street and 48th Avenue.

This route was chosen based primarily on the connectivity it provided. This trail will connect Kent Trails, Spring Grove Park, the Village of Jamestown, and the future Macatawa Greenway Trail.

Other Township Multiuse Pathways

As shown on the Action Plan Map, there are additional north/south multiuse pathways planned for the Township. In the past, the Jamestown Charter Township Parks and Recreation Committee selected these locations based on the population pattern in the Township and the desire to connect the corners of Jamestown Charter Township with the City of Hudsonville and the residential developments to the south of the City. The desire of the Township remains and these multiuse pathways will be completed as local resources permit.

For the entire five years of the plan, the Township will seek private and public funding to complete other planned non-motorized trails. The Township should continue its requirement that residential developers construct multiuse pathways along related public right-of-way frontage. Furthermore, the Township should continue to require residential developers to construct pathways internal to their projects.

Action Implementation: Recreation Amenities for Children (Goal #3 & #6)

Playgrounds and Splash Pad

The Township currently owns two (2) parcels of land at the end of Sunbrook Court, totaling approximately 85 acres. These parcels provide sufficient acreage to establish playground space, a splash pad, gazebos, and related amenities as well as sizeable area for related vehicle parking. In fact, this property serves as the Jamestown Community Park. During the 2025 recreation survey, the Township asks residents which recreation amenities were most important to them so that the Township could prioritize their incorporation, if feasible, into the Park. While it is not necessarily intended that this particular property will accommodate all of the aforementioned recreational amenities or those identified by the survey, the location of the property to existing residential neighborhoods is ideal and will be the primary location for recreational opportunities in the Township.

While balancing the higher priority recreational pursuits, the township should examine the costs to install playground equipment, a splashpad, and other related amenities and plan accordingly for their future installation.

Water Fountain/Bottle Filling Stations

As identified within this recreation plan, multiuse pathways are prominent within the township and continue to be expanded. As a result of over 39 miles of existing multiuse pathways, the township recognizes the need to provide for convenient hydration locations. While the multiuse pathway network is expansive, two (2) centrally located opportunities, in terms of population densities, exist at the Township Hall and the Township Fire Department building.

The Township should examine the costs to install a drinking fountain and water bottle filling station adjacent to the bike bath at each location.

Benches/Seating Areas

As a result of the expansive multiuse pathway network within the Township, it is recognized that appropriate areas of rest should be provided through benches or tabled seating areas. These areas of respite provide for opportunity to recover and gather with others.

The Township should examine the costs to install benches, tabled seating, and gazebos along the multiuse pathway system, particularly in the same location as the water fountain/bottle filling stations.

Future Play Area Safety Measures

As identified in the Playgrounds and Splash Pad subsection above, while it is not necessarily intended that this particular property will accommodate those aforementioned recreational amenities, the location of the property to existing residential neighborhoods is ideal and will be the primary location for recreational opportunities in the Township. The Committee recognized that if this type of development occurs, safety measures such as security fencing should be installed to protect occupants from injury or unwanted interactions.

Township should examine the costs to install safety measures with playground equipment, a splash pad, and other related amenities and should plan accordingly for their future installation.

Action Implementation: Install Athletic Fields and Courts (Goal #8)

Team sports and individual competitions are popular among all age groups, particularly with travel teams. In particular, the Township has received interest from a traveling soccer league to use future fields for their competition. Players within that league are from all over the State of Michigan. Recognizing the opportunity to develop the Jamestown Community Park property with a "clean slate," positions the Township to maximize the number of future users of the Park.

The Township should continue to pursue athletic fields, preferably multi-sport (multi-purpose) fields, as identified in the Jamestown Community Park Master Plan.

Action Implementation: Accessory Amenities (Goal #9)

Restroom Facilities

The Committee recognizes the need to plan future parks with restroom facilities. While sports facilities did not receive significant support from survey respondents, other than pickleball courts, athletics naturally occur in open fields and can result in organized sports. Coupled with playground use, which was identified as a high priority amenity, adequate bathroom facilities are necessary to support the users of the park area.

During a future feasibility study, the township should plan for future park areas to include a bathroom facility and examine the overall cost.

Action Implementation: Youth Gathering Locations (Goal #6)

Multiuse Gathering Space

Respondents to the recreation survey indicated that areas for gathering, such as pavilions/picnic space, benches/seating areas, a splash pad, playgrounds, and the like is important to their recreation needs. The Committee concluded the same as important within the Township. In combination with several of the aforementioned actions, a number of gathering components are expected to be of minimal cost to begin to develop gathering spaces.

The Township should examine the cost of playgrounds, splashpads, benches, table seating, a band shell, gazebo, etcetera in combination or throughout the Township.

Action Implementation: Land Acquisition and Future Planning Needs (Goal #4, #7, & #9)

Planning for Future Parks and Recreational Needs

As the community continues to grow and change over time, the Township continues to dedicate themselves to improving recreational offerings for the community. The

Township understands that in order to continue to ensure that park and recreation offerings adapt to and meet the needs of the growing community, they must be willing to continually invest in and look for new opportunities in parks and recreation programs, facilities, and services. This makes planning for future parks and recreation facilities a high priority. This is reflected in projects that spark or are a part of economic development, projects that seek opportunities for land acquisition, and the pursuit of additional funding mechanisms.

Land Acquisition

The Township will continue to look for opportunities to purchase additional land for recreational or preservation purposes as it becomes available within the or adjacent to the Township limits. This could include land for new sports field development, a community building, new park, trail easements, and acreage available for parks in residential areas, depending on the needs of the public.

Continue to Provide a Diverse Slate of Programs for All Ages and Seasons

In addition to providing cutting edge park facilities, it is equally important to provide exciting programs and activities. This need was discussed during the outreach process and the Township recognizes the need for diverse programs that cover all ages and seasons.

**Jamestown Charter Township
Parks and Recreation Committee Meeting Minutes
Wednesday, January 8, 2025**

- Ben Miller call to order 6:00PM
- Members Present: Ben Miller, Erin Wolters, Ron Koroleski, Dave Pruis, Lesli Kwiatkowski, Kerry Bairski. No members were absent.
- Staff present: Greg Ransford
- Discussion was held regarding the Accessibility Assessment. Membership inquired about what it would require to obtain a 4 or 5 rating. Direction was provided to Ransford to investigate.
- Discussion was held regarding the survey draft and post card. The Committee would like a Legacy link (donation) at the end of the survey. Kwiatkowski will raise this with the Parks Committee because they have discussed it before. It needs to be in place before the survey post card is sent. Direction was provided to Ransford to update the survey and post card.
- Ransford discussed the need for approximately seven areas to update in the current Recreation Plan and the need to be more regional about the park areas. Discussion was held regarding partnerships at the park properties and their inclusion in the Plan draft. Ransford will bring drafts, as they are completed, to the next meeting and subsequent meetings.
- Adjourn the meeting: Motion by Kwiatkowski, seconded by Koroleski to adjourn. Motion carried unanimously at 7:56pm.

- Ben Miller call to order 6:30PM
- Members Present: Ben Miller, Erin Wolters, Dave Pruis, Lesli Kwiatkowski, Kerry Bairski. Ron Koroleski was absent.
- Staff present: Greg Ransford, Laurie Van Haitsma
- Miller provided a motion to approve the agenda as presented. Motion was seconded by Pruis and carried unanimously.
- Miller provided a motion to approve the January 8, 2025 minutes with the removal of the letter “e” from “Leslie” and correcting Kerry’s last name. Motion was seconded by Kwiatkowski and carried unanimously.
- Discussion was held regarding the postcard and survey. Direction was provided to Ransford to update the postcard and survey accordingly. The Committee agreed that business owners should also receive the postcard for the survey.
- Discussion was held regarding the draft plan content and direction was provided to Ransford to continue revisions. Ransford will contact Vriesman and Korhorn regarding plan dimensions relative to the accessibility assessment.
- Discussion was held regarding 48th Avenue and Riley Street.
- Discussion was held regarding fundraising.
- The next meeting date will be March 6th at 6:30pm
- Adjourn the meeting: Motion by Kwiatkowski, seconded by Wolters to adjourn. Motion carried unanimously at 8:30pm.

- Staff present: Greg Ransford
- Miller provided a motion to approve the agenda as presented. Motion was seconded by Kwiatkowski and carried unanimously.
- Wolters provided a motion to approve the February 6, 2025 minutes. Motion was seconded by Bairski and carried unanimously.
- Discussion was held regarding the postcard and survey. Direction was provided to Ransford to add “Flexible Multiuse Open Air Venue Greenspace” to question 9. The Committee also directed Ransford to ask the Clerk to update the recreation page of the website. The Committee also asked Ransford to contact the Supervisor regarding a fundraising link and the fundraising consultant.
- Discussion was held regarding the draft plan content and direction was provided to Ransford to continue revisions.
- The next meeting date will following the completion of the recreation survey data collection and Ransford updates the draft Plan accordingly. Ransford will contact Committee members then with some dates.
- Adjourn the meeting: Motion by Miller, seconded by Pruis to adjourn. Motion carried unanimously at 7:50pm.

- Staff present: Greg Ransford
- Miller provided a motion to approve the agenda as presented. Motion was seconded by Kwiatkowski and carried unanimously.
- Miller provided a motion to approve the June 19, 2025 minutes. Motion was seconded by Wolters and carried unanimously.
- Discussion was held regarding the survey. According to the survey, the Committee would like the Board of Trustees to provide for a new park plan layout – the pickleball courts should be relocated on the other side of the playground due to noise and lighting. No skate park is necessary based on respondents. The Committee notes that an all season park is desired by respondents. The Committee advises the Board of Trustees to review the results prior to additional amenities being constructed and consider combination of both park committees into one.
- Discussion was held regarding funding and e-bikes, with particular regard to pathway ordinance limitations.
- Plan is ready for public hearing. Following the conclusion of the comment period, the Committee will meet to discuss any comments provided by the public and finalize the plan for a recommendation to the Board. The next meeting will be scheduled following the published public hearing notice.

Appendix		

Section 1. Executive Summary

The 2025 Jamestown Charter Township Parks and Recreation Survey was mailed to over 3,200 property owners. In addition to this report, we have included the non-summarized results in the appendix.

Below we have provided a summary list of items that appear to be the most significant findings from our review of the survey results. These findings and the more detailed results of the survey should be used to guide the Township's Parks and Recreation Plan. If you have any questions, please don't hesitate to reach out to us.

- The results are generally representative of the population of the Township, but individuals 24 and under are not well represented and Area 2 of the Township appears to be over-represented.
 - Age plays an important role in what people look for in parks and what recreational activities they participate in.
 - It may be beneficial to get more feedback from school-age children to better understand what they want in a park.
- Be aware of self-selection bias. It's possible that only people who want or value parks responded to the survey and people who do not want or care about parks didn't respond. As such this survey is not designed to gauge whether residents value parks over other items (road improvements, lower taxes, etc.) but what improvements are most desired and beneficial to people who do visit parks.
- When choosing which park to visit, a safe environment is by far the most important factor, followed by the location, access to exercise areas, "*tracks, or trails*", and the facilities available are important.
- Parks outside of the Township attract respondents mainly to access beaches, trails, and dog parks. When determining what improvements to make to Township parks, the Township should consider what amenities are available at other parks in the area before deciding what improvements to make to Township parks.
- Many respondents drive to parks but making sure that people can walk or ride to parks is also very important.
- When determining to improve an existing park or purchase land for a new park the Township should consider the proximity to local businesses. Local businesses can be an important funding source for improving and maintaining parks, if they can be shown that the improvements will have a positive impact on their business.
- The improvements most desired by respondents, in order, are:
Please note that respondents could select multiple improvements
 - Pickleball courts (55.42%)
 - Paved Trails (55.30%)
 - Playground Equipment (52.98%)
 - Benches/Seating Areas (50.18%)
 - Nature Areas (46.53%)
 - Pavilions (46.04%)
 - Splash Pad (45.43%)

- A complete list of improvements and their rankings can be found on page 13 of this report.
- For winter activities the improvements most desired by respondents, in order, are:
Please note that respondents could select multiple improvements
 - Sledding Hill (74.69%)
 - Ice Skating (59.75%)
 - Firepit (51.87%)
 - Cross Country Trails (51.87%)
 - A complete list of improvements and their rankings can be found on page 14 of this report.
- Applicants were provided with three opportunities to provide open-ended responses. In general, it appears that respondents enjoy playing pickleball, hiking/walking, biking, and participating in outdoor sports. Also making sure parks are kid friendly is important. A word cloud for these responses can be found on pages 15, 16, and 17 of this report.

In addition to the summaries provided in this report we have attached the following reports from SurveyMonkey:

Section 2. Survey Distribution

In an effort to reach as many property owners and residents of Jamestown Charter Township as possible, a survey postcard was mailed to approximately 3,210 households. In response to this call to action, 821 individuals completed the survey for a response rate of approximately 26%. This includes responses from four non-residents. While there are many different standards for what a “good” response rate is, we typically expect a response rate between 10% to 20%. Given this, we are very happy with the number of responses received for this survey.

A copy of the postcard is included in Appendix A.

Section 3. Representativeness and Reliability

When reviewing the survey results, we first want to test whether the responses can be relied on to provide a representative sample of your community. In short, the results appear to be reliable and generally representative of the community, however individuals aged 24 and under are not well represented, and Area 2 of the Township is over-represented. The map showing the different areas of the Township is located on page 5.

In order to test the representativeness and reliability of the survey results we looked at three attributes.

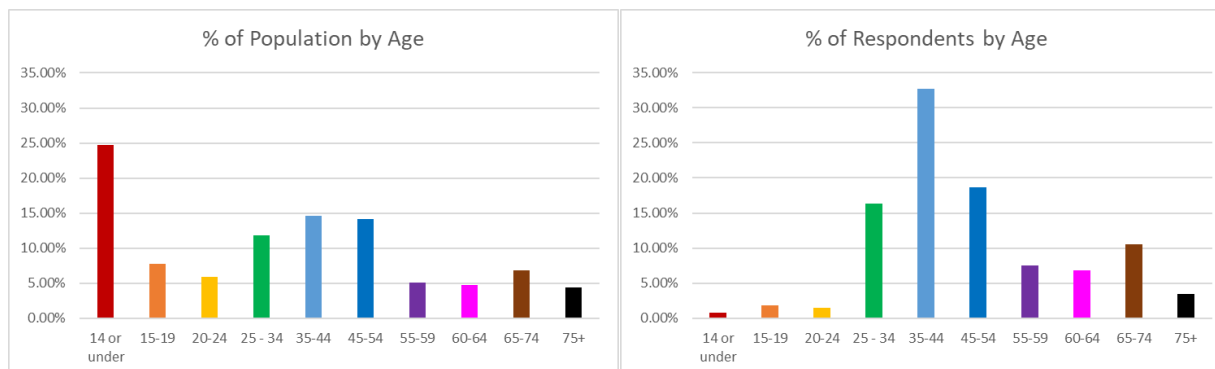

First, verification of whether the ages of those that responded are reflective of the age groups identified by the latest American Community Survey. The American Community Survey (ACS) is an ongoing annual survey conducted by the United States Census Bureau. The ACS uses a random sample of addresses to collect responses and provide estimates on information similar to what is included in the Decennial Census, such as age, education, and other population and housing metrics.

Second, we look at where respondents stated they live in order to ensure that the respondents are representative of the different geographical areas in the Township.

Lastly, we will look at the number of people who responded compared to the total population. By comparing these numbers, we will be able to determine how confident we are that the survey results are accurate.

2.1. Representativeness by Age

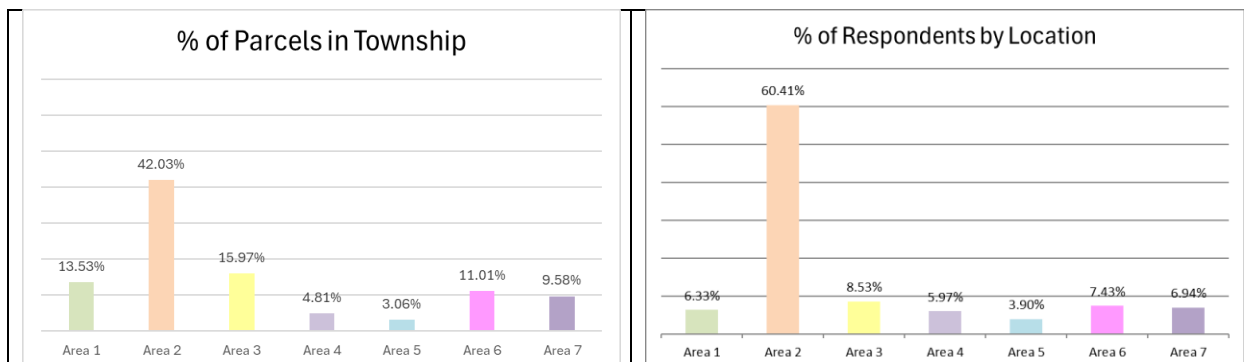

As expected, all age groups were not equally represented in the survey results. Respondents were mostly over the age of twenty-five with individuals thirty-five to forty-four responding the most. That being said, the survey results may be skewed towards the needs and desires of individuals thirty-five to forty-four years of age but otherwise are a fairly representative sample across age groups.

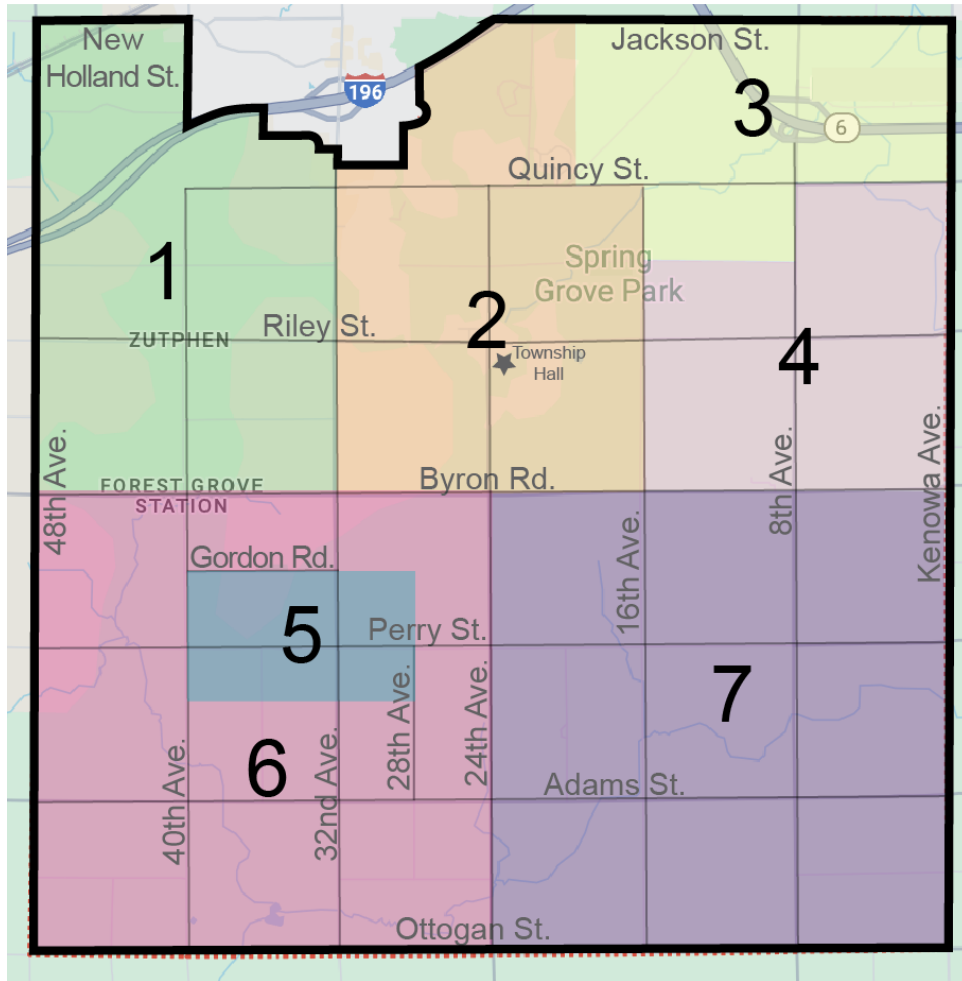

2.2. Representativeness by Location

For the survey the Township was broken into different areas. The areas were numbered 1 to 7, and respondents were asked to identify which area of the Township they lived in. After comparing the number of parcels in each area to the number of responses received from each area, it appears that Area 2 is over-represented in the survey responses.

Even after accounting for Valley Vista Apartments and Townhomes it is not clear why the percentage of responses from Area 2 were significantly higher than the percentage of parcels in Area 2. While there are a number of reasons Area 2 had a higher response rate than other areas of the Township, which could include an advocate living in the area encouraging neighbors to respond or a number of other reasons, a potential reason is that Area 2 is a more densely populated residential, suburban area and individuals living in this area don't own large properties where they can engage in outdoor activities in a way they desire and therefore have more demand and need for public recreational areas. While individuals living in more rural, spread out, areas of the Township do not have the demand or need for public recreational areas. Given this, there could be a self-selection bias present in the survey. This means that the results of the survey may not be representative of the Township as a whole and only representative of a portion of the community. As such, the results of this survey should not be used to indicate that improvements to parks and recreational facilities are of a higher priority than other demands for public services.

Where you live map from survey

2.3. Reliability of Survey

The results of the 2025 Parks and Recreation Survey appear to be reliable.

When speaking to the reliability of a survey we are trying to determine how likely it is that if we repeated the survey with another group of residents, we would get the same or similar results. A general rule of thumb is if you have a confidence level of 95% and a margin of error of 5%, your results are likely accurate and precise and can be relied on.

Based on the 2023 American Community Survey conducted by the United States Census Bureau Jamestown Charter Township has approximately 9,839 residents. Eight hundred and seventeen (817) residents or approximately 8% of the population responded to the survey. Based on this information we were able to calculate the survey's margin of error. At a 95% confidence level there is a 3% margin of error. As such, the results of this survey appear to be reliable.

SPACE INTENTIONALLY LEFT BLANK

Section 4. Survey Results

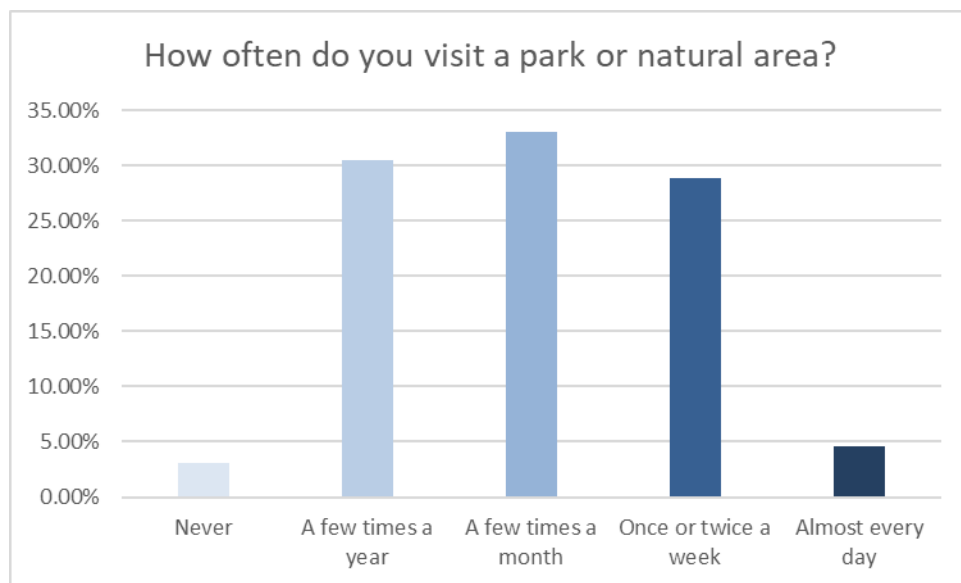

3.1. How often do you visit a park or natural area?

A majority of respondents (66.51%) visit parks regularly (almost every day, once or twice a week, or a few times a month). Even though that doesn't mean they are visiting only Township parks, it does show that most respondents place a high value on visiting parks and natural areas.

Respondents placing a high level of value on parks and natural areas is a double-edged sword. It means that they are likely to have a good amount of experience backing up what they like, don't like, and the improvements they want. It could also mean that there is a self-selecting bias. Meaning that, a majority of the people that responded chose to respond because they love parks, where people who don't care about parks didn't respond.

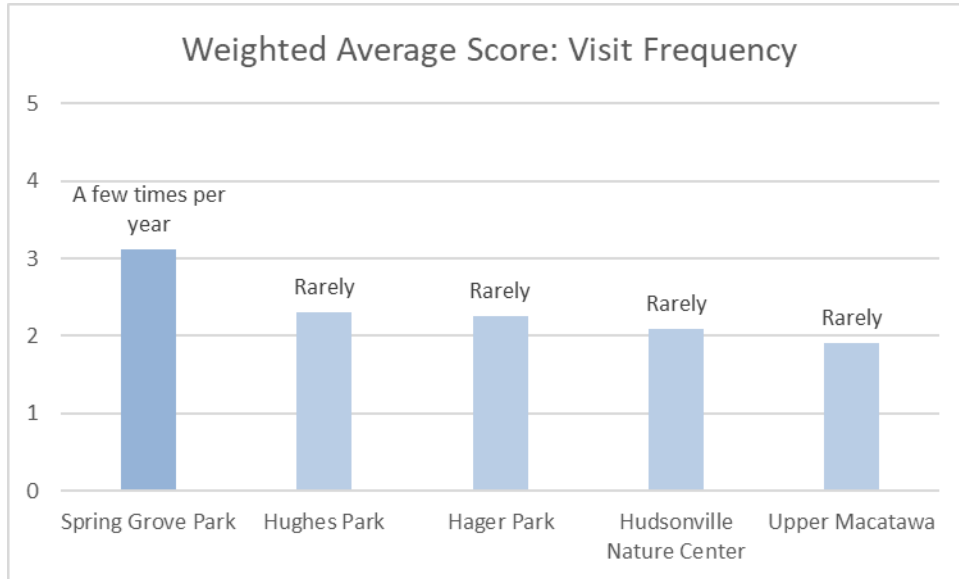

This means the results of the survey should reflect what improvements people who visit parks want, but it may not reflect the value of parks to all residents.

Answer Choices	Responses	
Almost every day	4.63%	38
Once or twice a week	28.87%	237
A few times a month	33.01%	271
A few times a year	30.45%	250
Never	3.05%	25

3.2. How often do you visit the following parks?

Spring Grove Park is by far the most popular park listed. However, respondents also visit many other parks in the area. When determining what improvements to make to Township parks, the Township should consider what amenities exist in other nearby parks, what amenities those parks have and consider whether or not the amenity needs to be recreated in the Township, or if there are amenities that don't exist nearby that could appeal to residents and other individuals living nearby.

Park	Weighted Average Score
Spring Grove Park	3.1108
Hughes Park	2.3066
Hager Park	2.2596
Hudsonville Nature Center	2.088
Upper Macatawa	1.9011
<i>Scale of 1 to 5:</i>	
5 = Weekly	
4 = Monthly	
3 = A few times per year	
2 = Rarely	
1 = Never	

Does a person's age impact which parks they visit?

Age does appear to have an impact on which parks people visit.

- Spring Grove is the most visited park across all age groups.
- Hughes Park does not appear to appeal to most respondents 60 years old and older.
- While Hager Park is less visited than Spring Grove and Hughes parks, it is most visited by respondents who are 25-59 years old.
- Respondents aged 14 and under also visit Hager Park, at least monthly. The frequency of their visits may be impacted by the distance to the park and their inability to drive.
- While Upper Macatawa doesn't rank as high as other parks, the respondents that visit Upper Macatawa visit more frequently than those that visit Hager Park. Upper Macatawa appears to be visited most frequently by respondents 55-74 years old.
- While Hudsonville Nature Center is the least visited park. It appears to be most visited by respondents who are 20-59 years old.

Does where people live affect which park they visit?

Based on the information available, it doesn't appear that where people live has a significant impact on which park they choose. This may be due to the fact that 70% of respondents drive to parks, the available park options, and that some individuals may have chosen to buy a home that is near a park, so the location of parks is not an issue for them.

- Across the board Spring Grove is the most popular regardless of where someone lives in the Township.
- Hughes Park is the second most popular in most areas. However, in area 7, Hager Park is the second most popular. Area 7 is the furthest from Hager Park. The age of the people living in Area 7 does not appear to be significantly different than other areas of the Township, so we're not sure why Hager Park is more popular with respondents living in Area 7.

The area map is located on page 4 of this report.

Other Parks Visited

Respondents were given the opportunity to list other parks they like to visit. Based on our review of the responses it appears that beaches, trails, and dog parks are the amenities that draw respondents to other parks.

Below is a word cloud that was created by SurveyMonkey based on the open-ended responses that were received. Larger words indicate that there were more responses that included that word or phrase. 3.3. Do any of the following factors prevent you from visiting nearby parks more often?

Please note that respondents could select more than one answer.

While many respondents answered that nothing prevents them from visiting a park, approximately one-third of respondents stated that parks don't have the facilities they want, or the parks are too far away. The Township may want to investigate different strategies that could lower or eliminate these obstacles.

Respondents were also provided with the opportunity to list other factors that prevent them from visiting nearby parks. For a complete list of open-ended responses please start on page 15 of the report included in Appendix B.

Answer Choices	Response Rate

3.4. How important are the following factors in choosing which park you visit?

When choosing which park to visit “having a safe environment” is by far the most important factor. As the Township continues to expand and grow recreational facilities, a focus should be placed on creating a safe and welcoming environment. Beyond being safe, people want trails, facilities, access to nature, and access to playground equipment. Access to water and events in the park do not appear to be important factors in choosing which park to visit.

Choosing which park to visit.	Weighted Average Score
Safe Environment	4.44
Location	3.99
Exercise Areas, Tracks, or Trails	3.99
Facilities Available	3.95
Access to Natural Areas	3.67
Playground Equipment Available	3.59
Connection to trails and pathways outside of the Park	3.59
Access to Water	3.26
Events in the Park	2.81
<i>Scaler of 1 to 5:</i>	
<i>5 = Very Important</i>	
<i>4 = Important</i>	
<i>3 = Neutral</i>	
<i>2 = Not Important</i>	
<i>1 = Really Not Important</i>	

Does a person's age impact what is the most important to them?

Age does appear to have an impact on how some respondents answered this question.

- Respondents 25-44 years of age appear to have more demand for location and playground equipment.
- Respondents 19 and under appear to have a higher demand for exercise areas, tracks, trails, and access to water. Due to the lower response rate for this age group, it may be beneficial to gather more information regarding what teens and kids want.

Does where people live affect which park they visit?

- Based on the information available, it doesn't appear that where people live has a significant impact on which park they choose.

Respondents were also provided with the opportunity to provide open-ended answers to this question. For a complete list of open-ended responses please start on page 20 of the report included in Appendix B.

3.5. How do you prefer to travel to a park?

While respondents could choose multiple modes of travel, it is clear that many respondents drive to parks. However, many respondents want to be able to bike, walk, or run to parks. Parks should be designed to handle vehicle parking, provide areas for bikes to be stored, and be connected to surrounding neighborhoods and non-motorized pathways.

Respondents were also provided with the opportunity to provide open-ended answers to this question. For a complete list of open-ended responses please start on page 23 of the report included in Appendix B.

3.7. What facilities or improvements for winter activities would you like to see added to the Township Park?

In the previous question, 29.48% of respondents indicated they wanted winter facilities. This question was only provided to the respondents who indicated they wanted winter facilities. A sledding hill is the most desired winter improvement. If this is not something that is available or possible at an existing park the Township may want to investigate the purchase of land that could be used for sledding.

When determining where to purchase land for a new park or make improvements to an existing park, the Township should consider the park's distance to local businesses and/or if the travel route passes by local businesses. As you are aware, the cost to maintain recreational facilities can be quite high. By coordinating with local businesses, the Township may be able to secure funding for improvements and maintenance, if you are able to demonstrate the positive impact the project will have on the business.

Respondents were also provided with the opportunity to provide open-ended answers to this question. For a complete list of open-ended responses please start on page 31 of the report included in Appendix B.

Answer Choices	Response Rate
Sledding Hill	74.69%
Ice Skating	59.75%

1	I like the Ravines Park South for the Dog park, where I can run my dogs off leash. Given the amount of condos and apartments going up within the twp, having a place for condo and apartment residents to exercise dogs off-leash nearby is very much needed. Only the Ravines offers this kind of facility. Also, there are no outdoor exercise facilities for older teens and adults who may not be interested in team sports, like baseball or basketball. Priority Health has a program with the National Fitness Campaign to install Outdoor Fitness Courts. https://www.nationalfitnesscampaign.com >Michigan Also, husband is disabled from earlier stroke. Handicap accommodations in our parks are limited and seem to be an afterthought-nearly never exceeding minimum requirements, or at the Lakeshore, path across beach is short of the water.	4/9/2025 3:31 PM

2025 Jamestown Charter Township Parks and Recreation Survey

7	For how fast our area is growing, you should have at least 12 Pickleball courts	3/22/2025 4:15 PM
8	ponds or areas to kayak or fish	3/22/2025 12:56 PM
9	Bike traild	3/22/2025 11:01 AM
10	none	3/21/2025 12:18 PM
11	Red gravel running walking trail preferred to paved. It's very hard to find non paved running trails.	3/21/2025 7:25 AM
12	No dog friendly area!!	3/20/2025 8:41 PM
13	You can really ruin a good opportunity by not having great quality, splash pads, or usable toys...	3/20/2025 1:04 PM
14	Need dog poop stands/bags on pathways and proper stop signs by the elementary school and new park	3/19/2025 11:56 AM
15	Handicap accessible, foam bottom,no steps	3/19/2025 11:21 AM
16	Amplitheather	3/19/2025 10:52 AM
17	We don't need all these extras at every park. There are plenty of parks with these amenities already.	3/18/2025 3:36 PM
18	Horseshoe pits	3/18/2025 2:59 PM
19	Amenities for older kids/teens	3/18/2025 1:33 PM
20	none, taxpayers shouldn't be paying for more parks	3/18/2025 11:11 AM
21	Senior center	3/17/2025 6:47 PM
22	Nothing added. We have plenty. I am grateful for what is there. I need nothing added to current park system.	3/17/2025 3:05 PM
23	Basketball options are lacking around Jamestown	3/17/2025 11:19 AM
24	Ice skating	3/17/2025 8:11 AM
25	Nature	3/17/2025 7:25 AM
26	Public pool	3/16/2025 9:11 PM

29	X	3/16/2025 12:30 PM
30	Restrooms	3/16/2025 9:56 AM
31	Multiple areas for parking along with multiple trailheads. So if I can't make the full loop my husband can go get the car and pick me up at the nearest trailhead. This also spreads out the people so everyone isn't starting/ending at the same point. It is also nice to have smaller and bigger trails that are interconnected so everyone can pick the best distance for them and/or expand walls if they still have energy. I don't like being locked in to a specific distance based on how I feel at the beginning of the trail.	3/16/2025 8:35 AM
32	Definitely a splash pad similar to Lamar Park not downtown Hudsonville area, a groomed cross country skiing course like pigeon creek, farmers market venue	3/16/2025 8:11 AM
33	Cross country skiing	3/16/2025 8:04 AM
34	Outdoor workout circuit/stations for bodyweight workouts / calisthenics, Groomed Cross-Country Skiing (nothing like this nearby)	3/16/2025 7:35 AM
35	Sledding hill	3/15/2025 11:07 PM
36	Mountain bike trails	3/15/2025 10:25 PM
37	Obvious I have not had an avenue to express my frustration	3/15/2025 9:52 PM

2025 Jamestown Charter Township Parks and Recreation Survey

38	A great sledding hill on the south side of town! Hiking trails, equipment rental such and snowshoes.	3/15/2025 8:17 PM
39	Waterslide and pool, hot tub, rollerskating rink, hockey rink safe for skates, sledding hill, ice skating trail or rink	3/15/2025 7:28 PM
40	Natural trails (non paved)	3/15/2025 4:33 PM
41	Volleyball sand place	3/15/2025 4:10 PM
42	Rock climbing wall	3/15/2025 3:03 PM

6	You can tell when someone doesn't put a lot of thought into usable, playground toys or interactive, fun splash pad ideas. Another thought could be a walking trail that you turn into an ice-skating path in the winter like Maggie Daly Park in Chicago might be kind of fun. Basketball courts don't really seem to get used And neither do tennis courts anymore. I know there's some really cool splash pad and rock waterfall ideas that people have used that are good.	3/20/2025 1:06 PM

2	- Make sure upkeep and ongoing maintenance is funded. Don't just fund the initial capital costs but make sure there is money to pay for upkeep. - Don't duplicate facilities that are nearby (like schools next door that have playgrounds, or sports fields).	4/11/2025 9:17 AM

5	Excited for the new Community Park to be completed!	4/10/2025 1:42 PM
6	As a resident of Spring Meadows subdivision, whose home is on the other side of the park being built, I have very serious concerns about the walking trails in the new Jamestown Community Park, particularly ones that are on the northwest end of the park. These seem to serve no other purpose than to dead-end in what's essentially mine many of my neighbor's backyards. We are a community that is full of young families, and the backyard is currently an incredibly safe spot for my children and the children of the neighborhood to play. The idea of any old strangers on the walking path going so close to my backyard while my children and other children are playing back there makes me extremely uncomfortable. Those walking trail offshoots serve no purpose other than to be a dead-end turnaround for people who wish to walk through the park. I highly encourage you to rethink the design of where those are placed so that they are not going right up to homeowner's backyards.	4/10/2025 1:40 PM
7	Would like to see fitness programming and activities for seniors. This is where a fitness court could be helpful-getting older people outdoors in a fun environment to work on functional strength and balance! 16	We live on 12th Ave off of Quincy Street. We would LOVE a bike path on Quincy to either connect up to the bike path on 8th Ave or to get up to 16th Ave. Quincy is SO BUSY with traffic that it's too dangerous to bike from our house. We always drive over to Spring Grove park with our bikes loaded up and start from there, but really wish for a bike path on Quincy St by 12th Ave.	4/3/2025 2:51 PM

21	Non residents need to pay to use park. Every park I have been to that is new and free within a few years is ruined! Trash everywhere and playground equipment vandalized. Once it gets repaired the parks then start charging outside residents. We need to charge outside residents right away before this new park is destroyed by people traveling in to use this park and Spring Grove Park.	4/1/2025 10:26 AM
22	Let us drive our electric golf cart to the park! That would be amazing! Then we don't have to drive and could get there faster than biking... I'll bet there are dozens of other families in the area who would drive their golf cart too!!	3/31/2025 7:21 PM

30	Need a dog park!!	3/26/2025 5:48 PM
31	At the back of the park, where it butts up to the houses behind it, there are two portions of the proposed walking trail that break off of the main path and go "around" the existing patch of trees - by the far back of the parking lot. Those two offshoots go right up to the edge of the residents' property (backyards). Could just those two offshoots from the main path be removed? The residents of this subdivision have small children that play in their backyard all of the time, and it does not feel safe to have the walking trail come right up to the property line. The rest of the walking path does not have offshoots, so I'm not sure why they would exist here, especially when they would just be a dead end forcing walkers to turn right back around. I kindly ask that you carefully consider the safety of the residents and their children in the houses behind the park and do not allow the walking trails to come so close to residents' property. Thank you for your consideration.	3/26/2025 5:09 PM

72	We ask that the focus of the new park be on serving our local community rather than turning it into a regional destination for pickleball. While recreational amenities are important, excessive pickleball courts attract large crowds from outside the area, which may not align with the needs of our residents. Please consider looking at other parks that have already been heavily developed with pickleball courts and ensure this space remains a well-rounded community park that benefits everyone.	3/21/2025 4:06 PM

90	If you plan disc golf, I would love to get the township involved with a local disc golf course designer. Many baskets are poorly thought out and use the space inefficiency. 326	We already have Spring Grove that serves for photo opportunities and nature, etc. No sports though. We realize Sprin Grove is a county park but having the township park compliment it makes sense. Softball fields that are well run and maintained is a must, could also be a revenue source. I don't do pickleball but obviously that is a huge draw. There are nice tennis courts at Riley MS that are open to public. It would make no sense what so ever to add tennis courts even though we play a lot. Lots of shade at Spring Grove. Shade can be good but many more spring, fall days we look to get in the sun for warmth. Having it open all year is nice. Many days Spring Grove is blocked off in early spring, winter. The Whistlestop comparison seems very accurate.	3/15/2025 10:49 AM
327	I work for Wyoming parks department, and the splash pads are always the biggest hit for kids, playgrounds too. There are always many people biking and walking on the paved paths or wooded trails	3/15/2025 10:45 AM
328	I've noticed that alot of parks have pickle ball courts, the true gems are the ones that have enough courts, 8 is a good number in my opinion.....as well as a playground nearby for the kids to play as well	3/15/2025 10:44 AM

336	How will you maintain this park? Where are the millions coming to build this park? Please think this through before you build something too big and there is no one to maintain it	3/15/2025 10:02 AM
337	None	3/15/2025 9:45 AM
338	I believe that regular park activities (playground, basketball, trails etc) WITH something unique (splash pad, creek, wooden play structure etc) would be a good way to draw people in.	3/15/2025 9:39 AM
339	Keep up on the maintenance of the walking paths	3/15/2025 9:27 AM
340	Fishing and trails	3/15/2025 9:21 AM
341	Having an event space for food trucks and festivals is of high importance, a splash pad, large pond for fishing, walking trails, trees for shad (not completely open space without shade, an outdoor community pool	3/15/2025 9:17 AM
342	Hurry! We are excited to use the park!	3/15/2025 9:13 AM
343	Please keep all bike paths in good repair and safe from traffic.	3/15/2025 9:07 AM
344	More access to fishing, bike trail along 32nd ave	3/15/2025 9:04 AM
345	More pickleball courts!!	3/15/2025 9:03 AM
346	We have plenty of soccer fields already	3/15/2025 8:56 AM
347	Please put in the pickelball courts next at the Jamestown Community Park.	3/15/2025 8:43 AM
348	Covered in response to previous question.	3/15/2025 8:40 AM

373	Pickleball & soccer fields	3/14/2025 9:12 PM
374	Very excited for the new park! Wish there were more small parks within walkable (for small children) distance of all the new housing developments. Nothing crazy just some trees and playground in a small greenspace would be a nice requirement for new developments.	3/14/2025 9:10 PM
375	Na	3/14/2025 9:03 PM
376	Can't stress enough the need for a dog friendly area, especially with all the new housing going in - this need is only going to become more glaring.	3/14/2025 9:00 PM
377	Personally stuff like events, fields, etc are not appealing to me. We don't like the idea of bringing in additional traffic to the area, would rather see a park be a place more for the locals than a spot that ends up busy with events or organized sports. A park focused on nature is more appealing.	3/14/2025 8:58 PM
378	Not at this time	3/14/2025 8:55 PM
379	I'm concerned about noise that would come with pickleball.	3/14/2025 8:55 PM
380	We have often thought and have suggested that it would be nice if the paved trails extended down Riley street to Kenowa from Jamestown so we don't have to drive to the paths to walk or bike.	3/14/2025 8:54 PM
381	We look forward to the new park and will use it often!	3/14/2025 8:49 PM
382	Nope	3/14/2025 8:48 PM
383	Will you please consider boundaries for the playground areas? Will you also consider what material you have for the playground area floor? Those soft squishy bottoms are fantastic! Will	3/14/2025 8:47 PM

you also consider areas of the playground for different ages? Will you make sure there aren't any hiding places on the playground when children can be out of vision for long periods of time? For instance a tunnel with windows versus a tunnel without. You'd be amazed at w many instances are prevent just by having clear line of views.

384	Handicap accessible playground and trails	3/14/2025 8:43 PM
385	Lots of pickleball courts!	3/14/2025 8:38 PM
386	A golf simulator would be really cool. Not sure where/ how you would run it, but would be great. Golf is crazy popular right now.	3/14/2025 8:31 PM
387	Please know that the work you're doing is appreciated by our family!! Thank you!! I look forward to seeing how Spring Grove is updated or repurposed with the park down the street being built. Are you aware that Spring Grove has a reputation for being a place for teens to come smoke drugs in the parking lot?	3/14/2025 8:31 PM
388	no new taxes, find the money by shutting down other programs or tax the developers that are bringing new residents	3/14/2025 8:28 PM
389	Keep our parks shady with plenty of trees	3/14/2025 8:11 PM
390	No	3/14/2025 8:10 PM
391	Ready for the new park to open and be done! And I think spring grove could be improved tremendously. However don't really want to see taxes go up for it	3/14/2025 8:10 PM
392	No	3/14/2025 8:00 PM
393	Great interactive splash pad/water area, bathroom facilities, exciting and safe playground equipment (not boring), swings, lots of trees.	3/14/2025 8:00 PM
394	Trees are really nice. It's a long game but impactful	3/14/2025 7:47 PM
395	If a space for dogs is included, * please* make it nicer than Whistle Stop park. That place is gross.	3/14/2025 7:45 PM
396	Would love to have the park have a fenced in dog area	3/14/2025 7:43 PM

461	I'd love to see use limited to township residents and their guests and available to others for a fee! Georgetown has done that with some of their parks and they are some of the nicest facilities in West Michigan in my opinion. We as residents pay the taxes. I'd like to see first priority and use go to the residents.	3/14/2025 4:04 PM
462	Please, Please, Please keep the bike/walking paths cleared around the township - even in winter like other townships/cities do - so that they are accessible year round to walkers/runners, bike riders!! Please, especially after winter, clear them!! It is near impossible to walk, bike, or skate down them due to all the rocks from the plows.	3/14/2025 4:02 PM
463	Please make a effort to preserve any natural spaces as possible and it would be amazing if they could incorporate sustainable solutions perhaps "gray" water for the toilets, recycling and compost trash bins. A community garden would be amazing!	3/14/2025 4:00 PM

Community Neighbor:

Good morning. Our firm represents Jamestown Charter Township in Ottawa County. We have had the pleasure of assisting Jamestown with its MDNR Recreation Plan. Attached is their draft Recreation Plan, in which they are actively planning their Community Park as well as a Mountain Bike Park, the former of which is under construction, in part.

The Mountain Bike Park is expected to not only serve the region but attract users from out of State. In partnership with the Michigan's Edge Mountain Biking Association, the City of Hudsonville, Consumers Energy, the Ottawa County Water Resources Commissioner, and Royal Land Company, the Mountain Bike Park will contain over five miles of trails, a skills area, and a jump/skills course.

Given the Township's expectation that the Mountain Bike Park will draw regional and inter-State users and as a result of the Township's desire to involve its community neighbors in park planning, we provide the attached draft plan for your review and comment. We realize it is a lengthy document but welcome your comments anytime during the next few weeks.

If you have any questions or need any additional information, please do not hesitate to contact me anytime.

Thanks,

RESOLUTION R25-021

RECREATION PLAN
FOR THE CHARTER TOWNSHIP OF JAMESTOWN
COUNTY OF OTTAWA, MICHIGAN

FOR CHARTER TOWNSHIP OF JAMESTOWN BOARD OF TRUSTEES

WHEREAS, the Charter Township of Jamestown has undertaken a planning process to determine recreation and natural resource conservation needs and desires of its residents during a five year period covering the years 2026 through 2030; and

WHEREAS, the Charter Township of Jamestown began the process of developing a recreation and natural resource conservation plan in accordance with the most recent guidelines developed by the Department of Natural Resources and made available to local communities; and

WHEREAS, the residents of the Charter Township of Jamestown were provided with a well-advertised opportunity during the development of the draft plan to express opinions, ask questions, and discuss all aspects of the recreation and natural resource conservation plan; and

WHEREAS, the public was given a well-advertised opportunity and reasonable accommodations to review the final draft plan for a period of at least 30 days; and

WHEREAS a public hearing was held on November 17, 2025 at the Jamestown Charter Township Hall to provide an opportunity for all residents of the planning area to express opinions, ask questions, and discuss all aspects of the Jamestown Charter Township Recreation Plan; and

WHEREAS, the Charter Township of Jamestown has developed the plan as a guideline for improving recreation and enhancing natural resource conservation for the Charter Township of Jamestown; and

WHEREAS, after the public hearing, the Charter Township of Jamestown Board of Trustees voted to adopt said Recreation Plan.

NOW, THEREFORE, IT IS RESOLVED that the Charter Township of Jamestown Board of Trustees hereby adopts the Jamestown Charter Township Recreation Plan.

Statement of Accessibility

October 17, 2024

Statement of Accessibility Jamestown Community Park

Disability Network Lakeshore has been retained by Jamestown Charter Township to assist with its assessment of access for park elements currently under construction, and to review the master plan, both of which are necessary for future funding requests made to MDNR.

Presently, park drives, public utilities, and two parking lots are scheduled for completion this fall. The main parking lot includes 12 accessible parking spaces, six of which are earmarked for van accessibility. Curb cuts located at the front of these spaces eliminate the need for individuals to travel behind parked vehicles in order to reach the accessible route. The second parking lot consists of 225 spaces, 7 of which will be accessible.

This coming spring, playground equipment for children five and under, and youth five to twelve will be installed. Both structures will rest primarily on wood fiber with poured in place rubber at entry and exit points for the under-five structure, and at the entry point of the five to twelve unit. A paved sidewalk 8' in width encircles the playground and offers companion seating at 8 separate locations. Other accessible elements include, a merry go round and swing, both resting on poured in place rubber; a conical rope climbing element within the required transfer height, and a zip line with transfer stations at both ends that sit 11-18" off the ground.

Both age related play structures consist of 26 elevated components which include 25 transfer stations. This is almost double the number of transfers required by the 2010 ADA Standards for Accessible Design. Furthermore, the five to twelve play unit incorporates an elevated transfer system with a built in gripping component that increases access for children with mobility impairments.

I have reviewed plans for this project, including a 3D design perspective of the playground, met with the project engineer and play structure manufacturer, and the elements listed above meet the 2010 ADA Standards for Accessible Design. The park components currently under construction or scheduled for the spring of 2025 have been given a DNR accessibility grade of 3, i.e., most facilities meet accessibility guidelines. I recommend that the township indicate, in the master plan, the number of van accessible parking spaces to be included in the second parking lot referenced above. If you have any questions regarding this assessment, please feel free to contact me.

Sincerely,

Stacey Trowbridge
